

Contents

Number 1, January 1998

Doing what comes naturally in the dyehouse *B Glover* 4

The dyeing of wool: past, present and future *K Parton* 8

An attempt to enhance the effectiveness of the aftertreatment of direct dyeings with cationic fixing agents
S M Burkinshaw and G W Collins 12

Wool-acid dye covalent bonding: the effect of water-soluble carbodiimides
L Trézil, K Vizvárdi, Z M Jászay, I Petneházy and P Bakó 15

Application of a reactive cationic dye to wool *X Kongliang and H Ai-qin* 20

Number 2, February 1998

The future for West European dyestuff manufacturers *P Kelshaw* 35

The biotechnology approach to colour removal from textile effluent
N Willmott, J Guthrie and G Nelson 38

'Green' dyes *D Hobson and D Wales* 42

Synthesis and dyeing properties of novel disperse dyes. Part 2: Pyrazole disperse dye derivatives *Y M El-Kholi, S A Abdel-Hafiz and S H Ahmed* 45

Convective mass transfer in liquid treatment processes *F Y Telegin* 49

Absorption spectra and tautomerism of aminonaphthazarins *K Shirai, A Oshida and M Matsuoka* 56

Plasma modification on wool fibre: effect on the dyeing properties
C W Kan, K Chan, C W M Yuen and M H Miao 61

Number 3, March 1998

Molecular speciation of animal fibres
P Hamlyn, A Bayliffe, B McCarthy and G Nelson 78

Novel textile fibres from biotechnology
C Byrne 81

UMIST *L Weaver* 83

Application of the channel flow cell to the investigation of dyeing kinetics and mechanism: new perspectives on dyeing processes *J J Gooding, R G Compton, C M Brennan and J H Atherton* 85

Synthesis of HMFAN and its chromium and cobalt complexes and their application on nylon 6 and wool
H Kocaokutgen, E Erdem and I E Gümrükçüoğlu 93

Aftertreatment of 1:2 metal complex acid dyes on conventional and microfibre nylon 6.6 with a commercial syntan/cation system *R S Blackburn and S M Burkinshaw* 96

Dyeing of cationised cotton with acid dyes *M Kamel, M M Kamel, B M Youssef and G M Shokry* 101

Number 4, April 1998

Biodeterioration of natural fibres
E Evans and B McCarthy 114

Reducing the toxicity of textile effluent
C Moran 117

Application of phthalimide-based alkali-clearable azo disperse dye onto polyester and polyester/cotton blends
J S Koh and J P Kim 121

Synthesis, application and evaluation of cationising agents for cellulosic fibres
H S Seong and S W Ko 124

Colorimetric evaluation of the levelness of modified and unmodified cotton fabrics dyed with direct dyes with and without nonionic surfactants
I C Eleftheriadis, S A Pegiadou-Koemtzopoulou and A D Kehayoglou 130

Measurement of the activity of dispersants *C Daescu* 132

Dyeing behaviour and fine structure differences in acrylic fibres relaxed under different conditions
J Maillou, P Puente, J Gacén and A Correias 135

Number 5/6, May/June 1998

Calico Printers' Association swatchbook archive *L Weaver* 147

Bright, clean and biological *K Cowey* 150

Invisible textiles *P Brown* 152

Azo dyes encapsulated within aluminosilicate microporous materials
K Huddersman, V Patrino, G J Blake and R H Dahm 155

Preparation and properties of novel low-foaming dyeing auxiliaries. Part 1 – Preparation and properties of ethoxylated hydroxysulpho-betains in nylon dyeing *P H Yen and K M Chen* 160

Aftertreatment to reduce the washdown of leuco sulphur dyes on cotton during repeated washing
S M Burkinshaw and G W Collins 165

Dyeing of modified cotton fibres with disperse dyes from supercritical carbon dioxide *A S Özcan, A A Clifford, K D Bartle, P J Broadbent and D M Lewis* 169

The reaction of *p*-phenylene-diamine with a dichloro-triazin-s-yl reactive dye: selective monoacylation
A H M Renfrew and P Cowell 174

Number 7/8, July/August 1998

The mechanics of the ASDC scheme
T Baldwinson 189

Tencel – a unique cellulosic fibre
J Taylor 191

Membrane filtration technology in the dye industry *C Crossley* 194

The use of the dye CI Acid Blue 45 in the electrolytic colouring of anodised aluminium *S Theohari, I Tsangaraki-Kaplanoglou and R Moshohorilou* 199

Instrumental shade sorting in the past three decades *Y S W Li, C W M Yuen, K W Yeung and K M Sin* 203

Dyeing of polypropylene/wool blend in a single bath *J Arkman, J Prikryl and L Burgert* 209

Treatment of cotton fabrics with purified *Trichoderma reesei* cellulases
L Heikkinheimo, A Cavaco-Paulo, P Nousiainen, M Siika-aho and J Buchert 216

Colour fastness standards for textiles – update *A J Hall* 220

Number 9, September 1998

Profits loom large for environmental excellence *S Muirhead* 236

The European Union integrated pollution prevention and control directive and its impact on the wool textile industry
T Shaw 241

Dyeing machine control using in-line colour measurement. Part 2: On-line control of dye exhaustion rate
A Gilchrist and J H Nobbs 247

Selecting reactive dyes for all-in dyeing of polyester/cotton blends
S R Shukla, M R Mathur and L Chatterjee 254

Wash fastness of fluorocarbon finishes on polyester fabrics
F Dufour, C Jordan and P Viallier 258

Number 10, October 1998

Artificial neural networks explained – Part 1 *S Westland* 274

De Montfort University *L Weaver* 277

Redispersibility of disperse dyes containing polymeric dispersants *S Schejbalová, J Odvárka and V Záda* 279

Continuous control of an enzymatic pretreatment on linen fabric before dyeing *M-H Dezert, P Viallier and D Wattiez* 283

The use of ultraviolet radiation in an adsorbable organohalogen-free print preparation for wool and in wool dyeing: the Siroflash process *K R Millington* 286

An investigation into water marking and colour change in tussah silk fabric during moisture absorption *L Jinqiang* 293

Number 11, November 1998

Artificial neural networks explained – Part 2 *S Westland* 312

The application of cationic fixing agents to cotton dyed with direct dyes under different pH conditions *R S Blackburn, S M Burkinshaw and G W Collins* 317

Influence of ionic surfactants on the hydrogen peroxide bleaching of wool fabric *K Oh, M Park and K Hong* 321

Quenching by oxygen of excited states of dyes on cotton investigated with diffuse reflectance laser flash photolysis and singlet oxygen detection *L M G Jansen, I P Wilkes, D C Greenhill and F Wilkinson* 327

Bioscouring of cotton with pectinase enzyme *K Sawada, S Tokino, M Ueda and X Y Wang* 333

The kinetics of dyeing: a non-isothermal approach *C Popescu* 336

Number 12, December 1998

Trends in health and environment regulations *E Clarke* 348

EMU: legal issues for business *S Hornsby and G Felton* 351

Bioscouring of cotton with pectinase enzyme in a non-aqueous system *K Sawada, S Tokino and M Ueda* 355

Easy-care finishing of silk fabrics with a novel multifunctional epoxide. Part 1 *H Cheng and S Kai* 359

A novel approach for improving the light fatigue resistance of spiro-pyrans *H Oda* 363

Tautomerism and fluorescent properties of aminovinylpyrazine dyes *K Shirai and M Matsuoka* 368

Recommended weightings for colorimetric calculations *K J Smith* 375

Subject Index
